

# CRIER

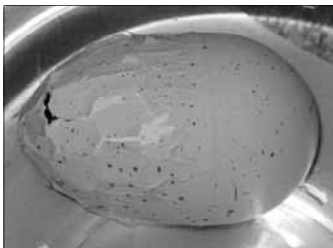

VOLUME 10, ISSUE 11 21ST MAY, 2009

## WOULD YOU BELIEVE IT? MIRACLES DO HAPPEN!

Believe it or not, Matilda found a dinosaur egg in the sandpit. She was so excited that she showed Hannah, then raced

back to the Year 1-2 classroom and showed her class-mates. They measured the egg. It was 11.5 centimetres long. Then they submerged the egg in the water.

On Day 2 the egg was starting to crack. By Day 3 the dinosaur was hatching. You could see its

head poking out. Finally the dinosaur was completely out. We measured it. It was 19.5 centimetres tall. It was so cool, watching every day and waiting to see the dinosaur hatch!

## ZOO-KEEPER FOR A DAY-YEAR 9 GIRLS TRY OUT ZOO WORK

During the first week of the school holidays Georgia Ryan and I travelled to Werribee Open Range Zoo to participate in two school-based work-experience programmes. The first was Zoo-keeping. We had an amazing and fun time doing basic caring jobs such as feeding animals and mucking out the stables plus picking up animal poo. Some of the animals I enjoyed being with included giraffes, rhinoceroses and meerkats.

On the second day we participated in a Careers Day at the Zoo. We met many people who work there and learnt all about their jobs and responsibilities. We really enjoyed this day and the opportunity to learn about careers in

the zoo. These included zoo-keeper, safari tour guide, zoo vet, vet nurse and education officer (who organises courses like the one we took).

The best part of being a Safari tour guide was introducing the animals to the children and adults. The worst part of the job was when the kids mucked around on the bus and were nasty to the animals. You really need a good sense of humour!

We gained a lot from these two days and look forward to participating in further interesting career programmes.

## WHERE DID KELLY GO? - PREPS READ STORY IN JAPANESE

In Prep Japanese we are learning about places. We read a story in Japanese about Ms Bagu's dog, Kelly. In the story Kelly escaped from home and we had to guess the ending. Where was she found? Was it in the park, the river, the town, the mountains, the forest or at the school?

Three people guessed correctly that she went to her favourite place, the river, or 'kawa' in Japanese.

P.S. Kelly is really a very good dog who didn't really run away.

## NATIONAL WALK TO SCHOOL DAY

Last Friday was National Walk to School Day. CKC students up to Year 10 participated on the day, not by walking to school, (which for most is not feasible), but by walking down to and around Quinn Island.

The aim of the day was to promote physical activity and to remind everyone of the importance of eating a healthy breakfast. Several parents participated, joining in the activities alongside the younger students.

Before the walk began, students were treated to a breakfast snack

consisting of samples of milk, cereal, fresh fruit, yogurt, wholegrain bread and honey.

Here are some comments from the Preps:

*We walked and we looked in a bird house. We saw those little creatures and we practised our stop-look-go.* Jock

*We saw cicadas.* Morgan

*You could find a lizard.* Lachlan

*We went in the bird house and it was a long way.* Charlotte
